KILLED WOMAN AND HIMSELF

QUEER MURDER AND SUICIDE WITH A MOTIVE LACKING.

Couple Dead in a Third Avenue Hotel Both Shot in the Night-Man's a Driver and Respectable, Woman Un-identified—Grief of Stricken Parents.

Ağman about 21 years old and a woman somewhat older asked for % room for the night in a Raines law hotel at Third avenue and Seventy-sixth street early on Tuesday wore spectacles and had the appearance of a school teacher. Both evidently were Germans. The clerk entered their names in the hotel book as "Emil Schillinger and wife." Soon after the couple had been shown up to a corner room they called for two glasses of lemon soda. The housekeeper, who slept in the next room with her little daughter, heard them chatting and laughing till late in the night.

At 4 o'clock yesterday afternoon the chambermaid reported that no one answered when she knocked at the room door Max Lindeman, the hotel proprietor, looking through the transom, saw that both lay dead on the floor in a pool of blood. Both bodies were cold. The woman lay with her head in the man's lap. Near his outstretched right arm lay a new revolver with four empty shells in it. The man had a wound in the temple and both were wounded in the breast. The man had taken off coat, waistcoat and collar. The woman was fully dressed. The bed had not been slept in. On a table near the window was a pile

The dead youth, the old man said when he revived, was his only son, a butcher's driver by trade and a boy of excellent reputation. Not the slightest clue to the woman's identity had been found up till midnight, although four detectives had tried all the evening to learn who she was. The letters were turned over unopened to the Coroner. The bodies were sent to the Morgue.

When a Sun reporter called at the home of the Schillingers the old man and his wife were seated opposite each other at a round table. Between them lay opened an

And the old man had not the slightest forewarning of what had happened until he saw his dead son in the hotel room.

SECRETARY BOOT ON DUTY. | \$500 DOWN AND \$100 A MONTH He is Not Surprised at the Outbre Treachery of the Filipines.

WASHINGTON, Oct. 28.—Secretary Boot resumed his duties at the War Department to-day after an absence of several weeks. He has been unable as yet to reach any decision as to the number of troops to be maintained in the Philippines during the coming winter and spring. A mass of for his consideration to-day and the chiefs of the various bureaus of the War Department called upon him to pay their respects, but there was no serious discussion of the

Philippine situation.
Secretary Root is not surprised at the recent disturbances in the Philippines and has always had in mind the known disposition of the Filipino to practice deceit. He was not astonished, therefore, at the reports telling of native treachery and of difficulties encountered by the Philippine Commission in securing native officials who can be trusted and whose loyalty is beyond question. On the contrary, he feels that too much should not be expected of the Philippine Commis-sion, in view of great difficulties in the way of carrying on civil government among people who have never known any other government than the iron hand of military power. He is of the opinion that it could hardly be expected that civil government

government than the iron hand of mintary power. He is of the opinion that it could hardly be expected that civil government would proceed smoothly and quietly. Obstacles in the way of disloyalty must be encountered, and whether it will require a renewal of active military operations to restore an absolutely peaceful condition, remains to be decided after a careful consideration of the subject.

Before arriving at any decision as to increasing the military force under Gen. Chaffee Secretary Root will have personal talks with those officers of the War Department who have but recently returned from the Philippines and are known to have given the situation there a careful study. In view of Gen. Corbin's known sentiments in favor of a reduction of the force in the Philippines, it is very probable that he will present to Secretary Root information which led him to that conclusion. Other officers who have but recently returned from Manila are Generals Sternberg and Weston, neither of whom is believed to bave received very favorable impressions of the conditions in the islands. Another officer who is known to have very little confidence in the Filipine ability to govern himself is Gen. S. B. M. Young, now commanding the Department of California. In a statement made some time ago in regard to his pursuit of Aguinaldo resembled a march of triumph through the north in the manner of our reception. Brass bands met us at every town, the church bells rang, and the Alcaldes and Presidentes and principal Filipines greeted us with hows and smiles and effusive hospitality. They were refusive in speeches of hospitality. They were effusive in speeches of hospitality. They were refusive in speeches of hospitality. They were effusive hospitality. They were refusive in speeches of hospitality. They were effusive hospitality was in hiding in their own houses or lying near by in ambush, fully informed by these lovers of peace whether we could be safely attacked or not. Did any peasant show us a road, he was murdered as soon as we were o

we were out of sight. The money we paid them for forage and food was straightway sent to the nearest insurgent commander. The Filipino is expert in deceit. He is the most cheerful and unnecessary liar you ever saw. Truth is his last resort, only to be used when all else fails."

It is thought at the War Department that even though Judge Taft be discouraged in his work in the Philippines he will yield to a patriotic duty and not resign, as predicted in a letter attributed to Gen. Chaffee. Every assistance will be given him by the War Department, and there will be no hesitancy about increasing the military force should such a step be considered necessary to uphold the civil authorities in the performance of their duties. It is now practically admitted at the War Department that it will take about 2,000 troops a month from the United States to replace the short-term men coming home.

Frank Curtis Blackman told Justice Holbrook in the Special Sessions court said it would cost for police protection to run a disorderly house at 15 First street in case he bought the house from Hertz. okman, posing as Frank Curtis, a farmer from Goshen, entered into negotiations with Hertz to buy the place. It was part of a plan of Col. Monroe of the Committee of 15 and John McCullagh, State Superintendent of Elections, to trap Hertz, who is said to own more disorderly houses on the lower East Side than any other man. He is reported to be worth \$300,000 and he owns the Dry Dock Hotel at Third street and the Bowery. Hertz and two others were caught in the act of completing the sale and arrested upon a Jerome warrant charging Hertz with renting a disorderly house. Assistant District Attorney Sandford asked Blackman what Hertz told him about police payments

"I asked him how the police should be used," replied Blackman. "He said that I would have to pay \$5.0 down at the station house and \$100 a month. He said that he had influence at the station house [Fifth street and that he could fix it so that I could have a couple of months to pay the \$500 in. "When we were looking over the place," continued Blackman, "Hertz showed me an iron door. He said that it was put in to keep raiders from getting upstairs. Blackman said that he was introduced to Hertz by a man named Smith, who runs the house at 7 First street, in which Blackman said a Mrs. Mack was interested. He did not say that she was Idzzie Mack of Capt. Gannon's Webster House. It was into 7 First street that the Slav servant girl, Sadie Regrut, was decoyed under pretence that Regrut, was decoved under pretence that she was to obtain respectable employment.
